## PROFESSIONAL SUMMARY

I am a Computer Engineering graduate with a Diploma in Computer Engineering, skilled in modern technologies like React.js, Node.js, and MongoDB. I have experience building dynamic web applications and am dedicated to continuous learning and staying updated with industry advancements. My technical expertise and problem-solving abilities enable me to contribute effectively to tech-driven projects.

## SKILLS

### Programming Languages

- C, C++, Java, Javascript, Python, Php

### Frontend Development

- Html, CSS, React, Tailwind, Asp.Net, Next js

### Backend Development

- Node js, VB.Net

### Databases

- MongoDB, SQL Sever, MySql

## EXPERIENCE

### Evansh Services, (Adipur-Kutch)

01/07/2023 – 01/09/2023

- I've had the privilege of working with an exceptional team and overseeing projects that challenge the boundaries of what's possible. It's been a period of tremendous growth, learning, and collaboration.

### Technology training program in Web Development

13/06/2024 – 07/07/2024

### Evansh Services, (Adipur-Kutch)

- I had the opportunity to deepen my understanding of software development principles and practices, participate in key project training, debug web applications, and collaborate on developing, testing, and launching new features.

## Projects

### Water Bottle Supply Billing System

A billing system for water bottle supply with features for managing customers, making entries, and generating monthly bills.

## EDUCATION

### B. Tech, Computer Engineering

06/2023 - 04/2026

### Charotar University of Science and Technology (CHARUSAT)
